

## LKLH Drying and Heat Setting Stenter.

Please note this unit has been built to a very high specification with many European made parts incorporated in the machine.

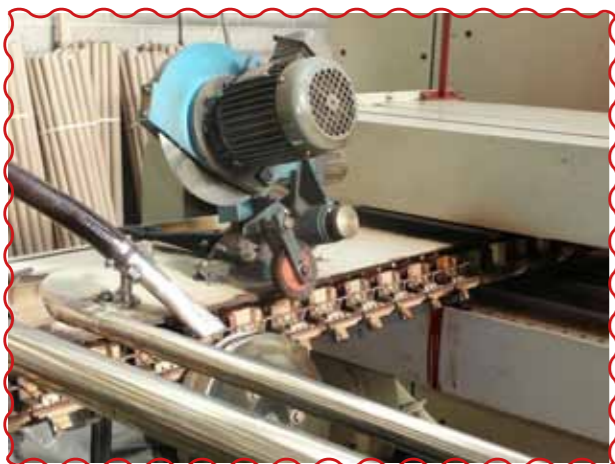

The edge guiding is by E & L,  
selvedge opening by Tandematic,  
all the motors are German and the gas burners are Italian.

There are many safety features on the machine and is complying to

GERMAN TUI Specification  
&  
European CE Specification.

See Full Specification below.
